THE MORSE DRY GOODS CO. PROTEST FROM EGYPT.

Story of the Lynching of Coe Reaches the Land of the Pharaohs. ALEXANDRIA, Egypt, Dec. 11, 1891.-To the Editor of The Bas: I have just read in my regular daily paper the "Phare d'Alexandrie," an account of the lynching of a negro at Omaha. The story, which I inclose, may be incorrect, but, at any rate, it will serve as the text of a sermon, which, as an American citizen resident in Egypt, I should like to preach through your columns to my more fortunate countrymen who reside at home. Scarcely a week passes without the appearance of some similar piece of news from the marked. They are fully 25 per cent less United States in the European and other foreign press. Usually it is a specimen of ynch law. Now and then for variety we

are treated to a case of shooting at sight with revolvers. Our politics have small interest for foreigners, and American news is generally voted dull; the result is that thes reports of murder are eagerly copied for the element of spice which they give to our every-day history. They are read by everybody; by the American abroad with a feel-ing of intense shame; by the foreigner with a sense of surprise at the state of our civilization. When my neighbors here speak to me on the subject I say that such acts are to be expected in a new country, but in my heart of hearts I know that that is no excuse, for they do not occur in Australia or New Zealand, and they do happen in parts of the

United States which have been settled over 200 years. Now, what does the prevalence of such crimes necessarily provef. One, at least, of three things—(1) Either our laws are so bad that they have to be supplemented by private individuals, or (2) our juries are corrupt and refuse to enforce the law, or (3) our people are so bloodthirsty that they are unwilling to leave the execution of capital punishment to the regular officials. The foreigner, who is none too logical, makes all three Again and again have I read articles in European journals speaking in this con-nection of the total failure of our institutions, of the low state of our civilization and of the omicidal instincts of our people as a race. Mr. Joseph Neushaffer and his compan-

ions, who are represented in the enclosed article as having broken into the jail and killed the negro, doubtless thought that they were performing an act of good citizenship. Did they also consider that they were doing their best to cast their country into disrepute before the entire world, and to bring a blush to the cheeks of thousands of their fellow-clitzens abroad? The fact is that they were committing a crime unknown in any other civilized country on the globe, and which yould not be tolerated for a moment here is Egypt, and at the same time proclaiming to all mankind that barbarism can find a new lease of life in the great republic of the west.

These are harsh words, but they cannot be made harsh enough. It is time that we should rise in our might and put an end to that class of murders, which in many parts that class of murders, which in many parts of the land are rather favored than condemned. A national society with such an object in view would find a noble work before it, first in ridding us of Judge Lynch, and then in inaugurating a crusade against the carrying of revolvers. By such an organization public opinion could be instructed and changed and occasionally at least the murderers beginned to condign punishment. It is derers brought to condige punishment. It is in the hope that the attention of some of our active and philanthropic people may be turned to the question that I have written these lines. Yours, etc.,

Eden Musee Will Take Up Quarters in the Old Opera House. ipon a new stage in its varied career. Its owner, Judge Poppleton, had been negotia-ting for its lease to the Eden Musee company, and Manager Lawler vesterday reported the deal closed. In speaking of the theater's future he said: "We have a lease of the Grand for five

we have a lease of the Grand for hye years. Mr. Poppleton wishes us to take possession at once, but we prefer to wait until the house is remodeled according to plans we have agreed on. The lease reads from July I, and it is hardly probable that we will open up in the Grand before next "We expect to have one of the largest, most complete and most comfortable houses of our kind to be found anywhere. The thentre will undergo a thorough renovation. The unsightly girders will be concealed and the ceiling will be so covered in as to greatly

improve the accoustic properties of the audi-torium. The interior will be repainted in

light colors, and there will be new scener-

and drop curtain. The present fover will be handsomely furnished for a reception room. The curio hall will be on the second floor and will face three sides. "Our plan now contemplates a stock com pany that will give an hour's performance of standard plays. To this will be added a half an hour of specialties, and we expect to have a much better class of these than ever before. For example, there are many trapeze and aerial acts which we are now unable to give for lack of space above the store. At present we are giving seven entertainments a day and there are many good specialty artists who cannot be engaged. We will probably give three performances a day in the new house, when we can secure the best special-ties traveling. We expect to show a great improvement in every department and count on the people of Omaha to endorse our enterprise." A LIVELY PLIGHT.

OMAHA PAPERS. What is Going on Among the Weekly and

Monthly Periodicals, The holiday number of the Railway News Reporter has made its appearance, and though a little late it was good enough to keep. The irrepressible Dan Honin set the mark high in his holiday issue of a year ago, but in his latest effort he has quite outdone himself, He presents a journal in which railroad people no doubt will have a special pr and Omaha will share the credit of the relisher's onterprise.

This number consists of sixty pages, with a suitably engraved cover, and it is filled with the pertraits and biographies of well known railroad men of the great west and of a few representative Omaha men. There are nearly 200 postraits, and many of them are in half tone, beautiful specimens of the modern en-graver's art. Conspicuous among the piz-tures are several full page cuts in half tone, One of these presents the engineers' general grievance committee of the Union Pacific system, showing twenty faces in the group. Two others illustrate groups of Deaver & Rio Grande officials. While most of the portraits are those of rallway officers, the employes are also represented. The Reporter is printed on heavy, finely finished paper, and it is an issue of exceptionally creditable

The Trade Journal is a new periodical which has just made its appearance Omaha. As its name indicates, it is devoted to the interests of the jobbers and the manufacturers of this city and the business men of Nebraska generally. In fact it is the organ of the State Business Men's associa-tion. R. F. Hodgen is the manager and H. C. Beatty is the editor. The Journal is com-prised of twenty-four pages, filled with may ket quotations and editorial matter bearing upon the commercial interests of Nebraska. It is well edited and well printed and will appear weekly.

The Swedish-American Publishing com-pany, publishers of the Swedish Journal, 1514 Capitol avenue, have this week bought out the entire plant, subscription list, accounts, good will, etc., of the Omaha Swedish Tribune and the two papers will be consolidated and published hereafter as one. Toat oaper is now the only Swedish weekly in the state and has twice the circulation of any Swedish-American publication west of Uhi-
